

THE STATE OF TEXAS

GOVERNOR

*To all to whom these presents shall come,
Greetings: Know ye that this official recognition is presented to all observing*

Physician Anesthesiologists Week

January 28–February 3, 2024

Modern medicine affords us a level of health, comfort, and security unimaginable to our forebears, and as members of a grateful society, we must acknowledge the specialists comprising our health care system. Among them are physician anesthesiologists, who provide anesthesia care, pain management, and critical care medicine.

The profession demands the utmost competence, commitment, and compassion, and as such, physician anesthesiologists devote tens of thousands of hours to training. During surgeries, births, and intensive care, they formulate and administer comprehensive pain management plans, and in dire circumstances, physician anesthesiologists can make the difference between life and death. I am therefore proud to recognize physician anesthesiologists, who touch Texans' lives from the Gulf Coast to the High Plains.

For ten years, a week has been set aside annually to celebrate our physician anesthesiologists and to recognize their contributions to our society. These professionals use their exceptional abilities to serve their fellow Texans, and consequently, they represent the best of the Lone Star State.

First Lady Cecilia Abbott joins me in encouraging all Texans to observe Physician Anesthesiologists Week with befitting programs and activities.

In testimony whereof, I have signed my name and caused the Seal of the State of Texas to be affixed at the City of Austin this the 2nd day of January, 2024.

Greg Abbott
Governor of Texas
